Fossil Record Ecosystem.....9
Becoming Fossil.....10
Fossil Classification.....11
Type of Fossil.....15
Fossil Record.....36
Fossil Fuel.....38
Conclusion.....43
Glossary.....45
Bibliography.....48

Preface

This book resulted from the development of the Geological Rock Garden (GRG) at Universiti Teknologi PETRONAS (UTP). It is designed as part of immersive reality features to make the story come alive. The book is illustrated in a comic version for children and adults readings, which is more fun and interactive to read than the usual book. This can be appealing to beginners who want to explore the story of earth and fossils.

This book is a combination of knowledge, talents and expertise from different levels of staff and students of UTP. Hope you enjoy the learning process through this immersive reality book.
